TECHNICAL DATA

	technical characteristics	test method	required values	result
	water absorption	ISO 10545-3	≤0.5%	≤0.4%
	modulus of rupture	ISO 10545-4	≥ 35 N/mm2	compliant
	surface quality	ISO 10545-2	Complies with the standards	≥95%
	thermal shock resistance	ISO 10545-9	No sample must show visible defects	compliant
	deep abrasion resistance	ISO 10545-6	≤ 175 mm3	compliant
	chemical resistance	ISO 10545-13	Declared value	compliant
	resistance to frost	ISO 10545-12	Resistant	compliant
	staining resistance	ISO 10545-14	Minimum Class 3	compliant

CERTIFICATIONS

An **Environmental Product Declaration (EPD)** is a globally recognised certification that outlines the environmental impact of a product across its entire life cycle. It supports sustainable decision-making and green procurement by assessing factors such as material sourcing, emissions, installation, use, and end-of-life disposal.

ISO 14001:2015 specifies the requirements for an environmental management system that an organization can use to enhance its environmental performance. ISO 14001:2015 is intended for use by an organization seeking to manage its environmental responsibilities in a systematic manner that contributes to the environmental pillar of sustainability.
